

DIGITAL ADVERZA

IMS - INSTITUTE MANAGEMENT SYSTEM

Project Overview & Feature Summary

A complete, cloud-based Institute Management System for Pakistani academies, tuition centers and colleges - students, fees, attendance, exams, certificates, payroll and accounting, all in one modern dashboard.

Prepared by:	Digital Adverza
Live at:	imspak.com
Date:	July 10, 2026
Status:	LIVE & DEPLOYED

1 Executive Summary

Digital Adverza has built and deployed a complete cloud-based Institute Management System for Pakistani academies, tuition centers, coaching centers and colleges. It brings student admissions, fee collection, attendance, exams, certificates, teacher/timetable management and payroll together in one secure system - so institute owners get full control without registers, fee diaries or scattered WhatsApp groups.

The system is multi-user with role-based staff access, gives every institute its own private database, and is live at imspak.com where any institute can sign up and start a free 1-month trial in minutes - no card required.

Private DB

PER INSTITUTE

Role-Based

STAFF LOGINS

100%

MOBILE READY

2 Technology & Architecture

Built on a proven, production-grade stack chosen for security, performance and long-term maintainability.

Backend	Modern PHP framework (Laravel) - robust, secure and widely used in production
Frontend	Tailwind CSS, responsive mobile-first UI for staff and management
Database	MySQL - reliable relational database, with a private database per institute
Reports	Fee Collection, Course Financials, Profit & Loss and Cash Book, exportable to Excel/CSV
Security	Role-based access, hashed passwords, HTTPS, CSRF protection & audit trail
Hosting	Cloud hosting at imspak.com with automated database backups

3 Key Features

Student Management

Admit students with roll numbers, courses, photos & status. Search, filter and export to CSV.

Fees & Installments

Collect fees, manage installments, print receipts, send reminders & track overdue fees.

Attendance

Mark daily attendance per batch and generate clear attendance reports.

Exams, Results & Certificates

Create exams, record results and issue printable certificates linked to each student.

Teachers, Batches & Timetable

Manage teachers, courses & batches, build timetables, and generate salaries & slips.

Finance & Reports

Fee collection, course financials, P&L and Cash Book with a live dashboard.

4 Roles & Access

Access is role-based - each staff member sees only what their role permits.

Owner / Admin	Full access - students, fees, attendance, exams, teachers, finance & reports
Front Desk	Admissions, fee collection & receipts, attendance marking & enquiries
Teacher	View their batches, mark attendance & enter exam results
Accountant	Fee collection, course financials, payroll, P&L & Cash Book

5 Complete Module Structure

Dashboard	Live KPIs - active students, fee collected, active courses & overdue fees
Students	Admissions, roll numbers, courses, status, search, filter & CSV export
Courses & Batches	Course catalog, batch scheduling & enrollment
Attendance	Mark attendance, attendance reports per batch/student
Exams & Results	Exam creation, result entry & printable certificates
Timetable	Class scheduling across courses, batches & teachers
Teachers	Teacher records, assigned batches & workload
Fee Collection	Installments, receipts, reminders & overdue tracking
Finance	Course financials, Profit & Loss, Cash Book & payroll / salary slips
Reports	Fee collection, attendance & financial reports, exportable to Excel/CSV

6 Pricing Plans

All prices in PKR. Start with a free 1-month trial, then pay monthly - or save with quarterly, half-yearly and yearly billing. Setup, training & support included on paid plans.

Plan	Price	Includes	
Basic	Rs 5,000 / mo	For small academies & tuition centers - up to 150 students, 2 staff logins	
	Rs 7,500 / mo	For growing institutes & colleges - up to 500 students, 5 staff logins (Most Popular)	Standard
	Rs 10,000 / mo	For large institutes & campuses - unlimited students & staff logins	Premium

Quarterly (save 5%), Half-Yearly (save 10%) and Yearly (save 20%) billing apply automatic discounts. 1-month free trial - no card required.

7 Security & Data Protection

- Role-based access - each staff member sees only what their role permits
- Private database per institute - your data is never mixed with other institutes
- Passwords securely hashed; HTTPS enforced across the app
- CSRF protection on all forms and rate limiting on logins
- Audit log - every key action recorded with user and time
- Automated nightly database backups with rotation

8 Deliverables & Getting Started

Delivered & live:

- Complete cloud-based Institute Management System - live and operational at imspak.com
- Student admissions, fees & installments, attendance, exams, results & certificates
- Teachers, batches, timetable & payroll / salary slips
- Multi-user, role-based access with full audit trail
- Fee Collection, Course Financials, Profit & Loss and Cash Book reports
- Private, secure database for every institute

How to get started:

- Visit imspak.com and create your account (free 1-month trial, no card required)
- We help import your existing students, courses & batches
- We set up your fee structure, staff logins & print templates
- Your team is trained over WhatsApp / call - then you go live
